Fikes Truck Line Wins Safety Award

Hope, AR...The Arkansas Trucking Association (ArTA) recently presented Fikes Truck Line with the Corporate Fleet Safety Award. The Safety Award is determined on the number of reportable DOT accidents in the state of Arkansas. Fikes won the award based on their record of zero reportable accidents in Arkansas in 2007.

Kelly Andrews, Director of Safety at Fikes, was on hand at the ArTA's award ceremony to receive the award.

"Fikes was categorized in the large company / flatbed division," says Andrews, "This classification positioned Fikes in direct competition against larger trucking companies."

According to Jerry Davis, Executive Vice President at Fikes, "This award serves as a true testament of the professionalism and partnership of our owner-operators, fleets and agents."

Fikes Truck Line is a premier national trucking company that specializes in flatbed, RGN, heavy haul, military hauls, drop-deck and side-deck trailers. For more information on Fikes Truck Line, visit www.fikes.com or call 1-800-643-6611.

The Arkansas Trucking Association is owned by trucking companies and private carrier fleets from one-truck operations to some of the nation's largest trucking companies, working together to build a pro-business, pro-trucking climate in which to operate. For more information on the ArTA, visit www.arkansastrucking.com or call 501-372-3462.
